# DISCLOSURES

Fisher Investments Ireland Limited ("FII") outsources the portfolio management function and certain other support services to its parent company, Fisher Asset Management, LLC, doing business as Fisher Investments (FI). FI manages shares of a wide range of companies on behalf of its and its subsidiaries' clients and funds for which FI acts as the investment manager. These shares entitle the holders to vote on various issues put forth by the company and its shareholders at the company's annual meeting or at a special meeting.

## Shareholder Engagement Policy

In compliance with the Shareholder Rights Directive, FII's Shareholder Engagement Policy requires annual disclosures which includes a general description of voting behavior, votes cast, an explanation of the most significant meetings and the use of proxy advisors. This Proxy Voting Report is intended to cover such disclosures. To the extent such disclosures do not include a full year's worth of information, please review the Proxy Voting Report published immediately prior to this Proxy Voting Report to supplement such disclosures.

## Definition for Significant Proxy Votes

FI defines significant proxy votes as votes cast against management's recommendation for the twenty companies with the largest AUM held in the portfolios of the applicable Fisher entity's clients in which the votes were cast. Since FI may use different proxy policies when voting shares at the request of clients, votes in this report are considered significant and disclosed where a majority of shares were voted against management.

FI votes proxies according to Fisher Investments Institutional Group's (FIIG's) clients' (including FII's clients') and funds' guidelines or voting policies, given account or fund specific mandates regarding voting (including, if applicable, in accordance with ESG principles).

## Proxy Advisor

FI utilises ISS as a third-party proxy service provider to manage the proxy voting process and as an advisory service. ISS is one of the largest providers of corporate governance solutions with services including objective governance research and analysis, proxy voting and distribution solutions. When FI votes proxies on behalf of its and its subsidiaries' clients and funds it acts as investment manager, FI evaluates issues and votes in accordance with what FI believes will most likely increase shareholder value. Additionally, FI has partnered with ISS to create a custom voting policy consistent with FI's ESG policies made available to all of its and its subsidiaries' clients and funds it acts as investment manager. FI frequently engages with company management on proxy voting issues, particularly when ISS is in disagreement with company management. Identifying engagement opportunities is a part of FI's fundamental analysis and, when appropriate for a client's or fund's strategy, to clarify or express concerns over potential ESG issues at the firm or industry level.

FI's Proxy Voting Policy is available on request.

For each proxy proposal, FI may vote for/with, vote against, vote abstain (abstentions are not cast in management's favor), vote withheld or do not vote. Ballots subject to share-blocking are automatically instructed with Do Not Vote on each ballot item. ISS generally handles the operational tasks related to proxy voting, including ballot information collection and vote submissions. While FI's Investment Policy Committee (IPC) utilises ISS for shareholder vote recommendations, the IPC reserves the right to override ISS recommendations as it sees fit. All decisions overridden by the IPC are documented by FI's Securities Operations Team and reported to FI's Proxy Voting Committee on a quarterly basis.

This Proxy Voting Report demonstrates how FI engages with company management on ESG proxy voting issues.
